## E-LEARNING: YOUR 24/7 CLASSROOM

Online Petroleum 9b [ ] & Renewable Energy Courses  
Anytime, Anywhere: The New Way of Learning

powered by 

**PETROLEUM ENGINEERING & RENEWABLE ENERGY COURSES –  
WHEREVER & WHENEVER YOU WANT**

## **ABOUT HOT**

The HOT Energy Group (HOT) is a multi-award winning provider of upstream oil & gas and energy transition training solutions. We pride ourselves in delivering excellence with each and every course session: Quality is always at the core of what we do.

Our top-notch energy training solutions, developed and taught exclusively by true experts, have been valued by the industry for over 35 years. Our training sessions equip our clients with powerful skills to remain competitive in an increasingly complex energy industry. We accelerate careers and empower people, striving to achieve the best possible results.

## **24/7 VIDEO-BASED KNOWLEDGE TRANSFER**

Our e-learning training platform (powered by Baobab LMS) for petroleum and renewable energy engineering provides a powerful tool for organisations in the energy sector, and our carefully designed and industry-recognised training courses offer control and management of individual learning, with engaging and interactive evaluations. The all **video-based platform, available 24/7 on any device**, provides a searchable knowledge base of bite-sized chunks of information when and where the user requires it (on-the-job, in a new location, when changing job function etc.).

Users can also access **structured content** in the form of 1 to 10 day classroom equivalent technical training courses and be awarded **digital certificates** that can be posted to the company LMS or social media.

When used in conjunction with standard classroom courses or workshops, the Baobab LMS solution offers a **powerful blended learning environment**.

## KEY FEATURES

### SHORT, SEARCHABLE VIDEOS

- Fundamental concepts
- Practical software tutorials
- Searchable transcripts

### PROGRESS TRACKING

- Course and badge progress
- Group progress (Scorecard)
- User statistics

### INTERACTIVE ASSESSMENTS

- Concepts (Quizzes)
- Applications (Practical Exercises)
- Skills and competencies (Tests)

### CERTIFICATES & BADGES

- Earn course certificates
- Gain digital badges for skill sets
- Share on social media

**Contents.** The comprehensive e-learning portfolio spans from introductory modules and foundation-level modules all the way to well performance, reservoir performance, network & field performance, and production operations.

**Applications.** Classroom learning gives you just the theory. With Baobab you'll learn how to apply that knowledge in a practical way, no matter where you are.

**Assessments.** You know your stuff. You know how to put it into practice. With Baobab's interactive assessments you can put it to the test – and earn skills badges and certificates as you progress.

**800 Videos,  
70+ Practical Exercises**

**All Courses Accredited  
by IChemE**

**100% of Subscribers  
Recommend Baobab!**

## EXCEPTIONAL BENEFITS

### BENEFITS FOR THE USER

- 7 24/7 access to a searchable knowledge base of information nuggets
- 7 Find information and solutions fast, on any device
- 7 Structured content for specific objectives (courses, "How do I?" etc.)
- 7 Learn software applications or new skill sets when you need them
- 7 Earn and post certificates (courses) and digital badges (skill sets)

### BENEFITS FOR THE COMPANY

- 7 This is a cost-effective solution to train a large number of employees
- 7 A powerful complement to corporate training activities
- 7 Deep knowledge retention and understanding of concepts (active learning)
- 7 User tracking (skills and competencies earned, course progress)
- 7 Protected content (proprietary videos, applications, case histories etc.)
- 7 Company logo branding and link to company LMS

### TESTIMONIAL

*"I really think the bitesize videos are excellent. They are so easy to dip in and out. It allows me to go exactly to the part I am interested in. It is the perfect tool for on-the-job learning – the perfect virtual colleague who can answer all your quick questions."* - Reservoir Engineer, Chevron
